Khalid Hossni

Full Stack .NET Developer

khalio.ad327@gmail.com | +20 1090835449 | Cairo, Egypt | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full Stack .NET Developer and Computer Science student at Ain Shams University with hands-on experience delivering real-world freelance web applications. Proficient in ASP.NET Core, RESTful API development, Entity Framework Core, SQL Server, and Angular. Demonstrated ability to gather client requirements, architect scalable solutions, and ship production-ready software. Strong foundation in OOP, SOLID principles, design patterns, algorithms, data structures, and Agile methodologies.

EDUCATION

Bachelor of Science – Information Systems *Sep 2024 – 2027*

Ain Shams University — Faculty of Computers and Information | GPA: 3.11 / 4.0

PROFESSIONAL EXPERIENCE

Full Stack Developer (Freelance) | **Sphinx-Cure – Medical Center Management System** *Jan 2026 – Present | Freelance*

- Delivered a full production-ready medical center management system to a real client, handling the complete SDLC from requirements gathering with the clinic owner to deployment.
- Built a patient records management module enabling staff to create, update, and retrieve medical histories, prescriptions, and clinical notes for each patient.
- Implemented a prescription management feature allowing medical staff to issue and track medication orders digitally, reducing paperwork and errors.
- Developed role-based access control distinguishing between administrative staff and medical staff with different data access privileges.
- Maintained direct communication with the hospital owner throughout development, translating clinical workflows into software features.

Technologies: ASP.NET Core, MVC, SQL Server, Entity Framework Core, C#, Bootstrap, HTML5, CSS3

Full Stack Developer (Freelance) | **Kindergarten Management System** *Jun 2025 – Sep 2025 | Freelance – Delivered to Client*

- Delivered a complete kindergarten management system to a real client, managing the full project lifecycle including client meetings, development, and handover.
- Built student enrollment and profile management with visit tracking and attendance records per child.
- Implemented inventory and sales management to handle supplies and daily transactions.
- Developed a financial records module tracking payments and outstanding balances per child, giving the client clear financial visibility.

Technologies: Python, Flet, Alembic, SQLite

Full Stack Developer | **Motorak – Car Showroom Web Application** *Jan 2025 – Mar 2025 | Personal Project*

- Designed and implemented a multi-role web application with role-based access control for three user types: Admin, Mechanic, and Buyer.
- Built a complete car listing and sales management module enabling admins to manage inventory and buyers to browse and purchase vehicles.
- Developed a service and repair tracking system linking each vehicle to specific services and assigned mechanics, supporting end-to-end workflow management.
- Applied MVC architecture, Repository design pattern, and SOLID principles across the full stack.

Technologies: ASP.NET Core, MVC, SQL Server, Entity Framework Core, C#, Bootstrap, HTML5, CSS3

Systems Developer | **OS Simulator – Operating System Simulation** *Sep 2025 – Dec 2025 | Academic Project*

- Contributed to a team-based OS simulation implementing process management, CPU scheduling, and resource allocation.
- Designed and implemented the Shared Memory subsystem enabling safe inter-process communication.

- Built the User Heap memory manager handling dynamic memory allocation and deallocation for user-space processes.

Technologies: C, Low-level Memory Management, Process Scheduling

TECHNICAL SKILLS

Languages:	C#, JavaScript, TypeScript, C++, C, Python, SQL
Backend:	ASP.NET Core, Web API, REST API, MVC, Entity Framework Core, LINQ, ADO.NET, Dapper, SignalR
Frontend:	HTML5, CSS3, Bootstrap, Angular, jQuery, Blazor, AJAX
Databases:	SQL Server, MongoDB, SQLite
Principles:	OOP, SOLID Principles, Clean Architecture, Design Patterns (Repository, Factory, MVC), Unit Testing
Tools:	Git, GitHub, Agile/Scrum, UML, XML, Swagger / OpenAPI

LANGUAGES

Arabic – Native | **English** – Professional Working Proficiency
